

Práca s textom – Reading Comprehension

Sharks

Part 1: Read the text and decide if the statements below are true (T) or false (F).

Prečítajte si text a rozhodnite, či sú výroky dolu pravdivé (T) alebo nepravdivé (F).

Sharks are interesting animals. They lived here even before dinosaurs! Sharks live in all kinds of waters – oceans, and even big rivers like the Mississippi or the Amazon. Some live in cold waters and some in warm waters. There are about 368 different kinds. They are very different. Shark can be very small (about 17 cm long) and very big (up to 15 m long). Most sharks are as long as people. Different sharks eat different things. Some hunt fish, sea animals, and even other sharks. Other kinds eat shells and crabs. Sharks have up to 3 000 teeth. The front teeth are very strong. Sharks don't attack people very often and don't sleep, but sometimes they just rest and don't move. The largest sharks ever was Megalodon. It doesn't live today.
